#### **COMMUNITY RESILIENCE & EMERGENCY PLAN**

#### KILDWICK & FARNHILL

#### **AIM**

1. To devise a plan which enables the Parish Councils (PC) (1) and the villagers of Farnhill and Kildwick to respond efficiently, effectively and in a timely manner to emergencies and hazards foreseen, and with enough flexibility to manage the unexpected.

#### **DEFINITIONS**

- 2. **Resilience.** The ability of a system, community or society exposed to hazards to resist, accommodate, adapt to and recover from the effects of a hazard in a timely and efficient manner.
- 3. **Emergency Planning.** The process to maintain plans for preventing emergencies: reducing, controlling or mitigating the effects of emergencies in both the response and recovery phases.

## **SOME POSSIBLE EMERGENCIES AND HAZARDS (Not an exhaustive List)**

- 4. Catastrophic and widespread power failure.
- 5. Gas leak or explosion.
- 6. Major Fire(s)
- 7. Fallen tree(s) damaging house(s) and blocking road(s) potentially resulting in injury and traffic disruption.
- 8. Flooding.
- 9. High vehicle stuck under or collided with canal aqueduct.

### INCIDENT CONTROL

- 10. **Location.** In the first instance the PCs and Community Volunteers are to assemble in the village Institute. However, the location of the incident cannot be predetermined and therefore it is prudent to identify alternative and widely separated refuge/welfare centres; see below:
  - a. Farnhill Institute
  - b. St Andrew's Parish Church including Parish Room. (small car park)
  - c. White Lion Pub. (large car park)
  - d. Village School.
- 11. **Keyholders.** Contact details of keyholders for the Refuge/Welfare Centres are found at Annex A.
- 12. **Staffing** will be provided by:
  - a. PCs' Members Annex B.
  - b. Subsequently, they would be reinforced by Community Volunteers Annex C.

13. **Duration.** The Village Centres could only provide short-term relief and accommodation. Thereafter, North Yorkshire County Council (NYCC) would assume responsibility. To this end the Resilience & Emergency Team is to be contacted promptly (See Annex D).

# 14. Village Communications.

- a. **Initial dissemination.** This plan is available on the PC's websites, and electronic or hard copies will be provided on request from villagers or other interested parties.
- b. All available means of communication will be utilised to manage the incident and to inform residents of progress eg. via social media (currently facebook & WhatsApp); door to door.

### **EQUIPMENT & STORES**

- 15. **Sandbags.** A small store of sandbags is held in grit bins as follows:
  - In the village car park by the playground.
  - Junction High street and Grange Road.
  - East side of the canal (Kildwick) 25 metres north from Parson's Bridge.
  - Pub car park.
- 16. **Defibrillators.** These are located on the external wall of the Village Institute and at the school.
- 17. **Other Items**. On the activation of the Refuge/Welfare Centre, a call for specific help will be posted on the village social media eg. refreshments, warm clothing etc. If loss of power is a consequence of the incident, then gas heaters, camping stoves and non-mains torches/lights would provide initial relief.
- 18. **Water Supply.** The prolonged loss of power would prevent those dependent upon boreholes from drawing water. In this instance NYCC should be alerted to the need for a water distribution point. Considering likely vehicle movement, in the first case this would be in the Pub car park.

#### TRAFFIC FLOW

- 19. The PCs are not responsible for controlling traffic and neither do they have authority to do so. In an emergency the first response will come from the police, who would in turn summon the necessary assistance from the other emergency services and NYCC.
- 20. However, we cannot abrogate common sense and safety, and where appropriate vehicles might be waved down and the danger explained. Thereafter persons must be left to make their own decisions.

### AGENCY CONTACT DETAILS

21. Connect Annex D

### **ACTION SEQUENCE**

22. Should the incident unfold gradually, then a guide to the possible sequence of actions in response is at Annex E.

23. If the event is sudden and without warning, then Annex E should be truncated and the response actioned from an appropriate point.

### **ANNEXES**

Annex A: Keyholders of Refuge/Welfare Centres

Annex B: Parish Council Members Annex C: Community Volunteers Annex D: Agency Contact Details Annex E: Sequence of Actions

(1) generic term to include Kildwick Parish Meet

## **COMMUNITY VOLUNTEERS**

Listed below are individuals who are willing to volunteer their time, practical skills or specialist knowledge during an emergency eg first aid, door knocking etc.

It is extremely important that volunteers understand that during an incident they should:

- Not endanger themselves or others
- Assess the risk prior to any activity they undertake
- Ensure that their contact details are kept up to date
- Be prepared to act promptly

#### COMMUNITY RESILIENCE & EMERGENCY PLAN ANNEX E

### **ACTION SEQUENCE**

### 1. Triggers

- a. Warning from NYCC or emergency services.
- b. Local observation from Parish Councillors or public
- c. Flood alert from the Environmental Agency
- d. Weather warning issued by Met Office
- e. Warning from Utility Services

### 2. Preliminary Actions

- a. Alert all Council Members and Community Volunteers. As the situation dictates, gather in the appropriate refuge/welfare centre (Connect Paragraph 10).
- b. Place other Refuge/Welfare Centre(s) on standby if necessary.
- c. Monitor local situation and update villagers on social media or by visits as required.
- d. Liaise with responding agencies to share information and get updates.
- e. Identify and inform vulnerable residents as necessary.
- f. Inform anyone at potential risk to be prepared and provide support if needed.

### 3. Subsequent Actions

- a. When action is predicted or required ensure response by Parish Councils and Community Volunteers is directed from a safe location.
- b. Open incident log.
- c. Assign roles to personnel.
- d. Activate Refuge/Welfare Centres to receive those affected by the emergency should it become necessary .
- e. Make a local appeal for resources as required and distribute eg food, blankets.
- f. Constantly monitor the situation.
- g. Continue to liaise with responding agencies to share information and get updates. Request emergency services' assistance or additional resources if required.
- h. Inform and monitor vulnerable residents.
- i. Convene regularly to update and reassign roles.
- j. Keep residents informed of the situation ie. via social media; door to door visits etc.

### 4. Post Incident

- a. Provide support to vulnerable and those adversely affected by the incident.
- b. Write "incident report".
